

PET RULES

Wildwood Haven Resort and Campground LLC

You are not entitled here, please follow the rules and be considerate of others.

We love pets that's why we take our pet's and our health and safety very seriously. Thank you.

PICK UP AFTER YOUR PET

It is absolutely required that you pick up after your pet - no matter where they go.

If they defecate in the woods, you go into the woods to retrieve it. There is no place where feces is allowed to be left behind.

Domestic animal feces spread diseases to other dogs and to humans. It can contaminate the water that you are consuming or swimming in. It can contaminate the land you are walking on and the things you touch. Do not put yourself or others at risk, clean up.

THERE ARE NO EXCUSES, your dog is on a 6ft or less leash, you will see them go, so pick it up. If you do not have pick up bags, we have them at the store. If you are just lazy, you will be asked to leave and fined.

This is serious, everyone's health depends on it.

LEASHES

You must have your pet on a non-retractable leash no longer than 6 ft when outside of your camping area. Within your camping area, your pet may be kenneled, on leash or on a tether short enough that your pet can not travel to another camp site or interfere with the shared spaces. The pet is required to be under your control and supervision at all times.

PET FREE ZONES

There is only one place your pet cannot go with you and that is the sandy beach, swimming area. Health codes prohibit pets in these areas. Thank you for understanding. If you want to play in the water with you leashed pet, you may enter the water by the boat landing but be aware that boats have the right of way.

Pets are welcome in our store and we do sell dog treats, however, be considerate if others are in the store, please wait patiently outside with your pup until the others are out. Not everyone likes your pet and some children and adults are uncomfortable with them, so be a good & considerate human.

MAXIMUM 2 PETS PER SITE

Maximum of two (2) pets per campsite or cabin. Mix or match dogs, cats, rabbits or what have you, max two animals. Any more than that, please find another campground or book additional sites.

NEVER UNATTENDED

Your pet may never be left unattended. Even if they are left in your air-conditioned trailer, it is not allowed, our power does go out from time to time and you could be leaving your pet in a situation that could quickly become fatal. If your dog is left barking, Animal Control will be called. If you cared enough to take your pet on vacation, take them with you or leave them home. There are many pet day care facilities in Ashland and Ironwood and overnight kennels if you need them. Please ask or Google them if you need a pet sitter.

OFF LEASH AREAS?

Zip, zilch, nada. The only place where your pet may be off leash while on our private property, is inside your private property. If they are in your vehicle, tent or trailer of course they are fine being off leash but be very careful they don't run out the door after something.
